

# 2023 rules for 22LR Bench Rest End-of-Year Awards

There will be two types of targets available for scoring this year:

1. The NRA 23/6 target, for all those with Iron Sights on their rifle.
2. The IBS Rimfire target, for all those with Scopes on their rifle.

These two targets for the respective rifles will be the only ones to qualify for the end-of-year awards. You will only be able to qualify in one of the two categories listed above.

You may shoot both Iron and Scope rifles during the season, however you will have to declare which of the two categories you want to participate in for end-of-year awards during your first shoot of the year. Also, that Scope or Iron rifle that you decide to be your qualifying rifle for end-of-year awards must be used on the first relay you shoot each Sunday.

There will be a third target available for those who would like to shoot the ARA Target. That target will not be scored by us and will not appear on any of the internal score sheets. It will be handed back to you for your own edification.
